

## AUSOM Inc. Video Story Competition 2018

ABN 63 929 877 630

This **AUSOM** competition offers club members the opportunity to demonstrate just how creative they can be when using images taken by them, to tell a short story.

As the technology continues to evolve it gives our members easy access to different ways of presenting a story through either movies or still digital images.

Your skill at making your presentations tell a story aided by the addition of music, narrative, text and special effects that come as part of a movie making or other presentation program will be one of the main criteria.

The images used in this competition do not have to have been taken in the last year so this is your chance to go through some of your old favourites and present them in a way which tells your story creatively.

It is suggested that you test your entry on a computer on which the program that was used to create your presentation is **NOT** installed.

There are two categories and you may submit

Only **one entry for each category**.

1. **Still Images Story** – any topic/ subject of your choice

2. **Mixed Media Story** - any topic/ subject of your choice

There is no limit on the number of images which can be included in the telling of the story, however there is a time limit.

**Please read all conditions of entry before commencing any of your presentations.**

We hope you have fun making your presentations and look forward to receiving them
